Instruction Manual

LOUVRE - WALL BACKING PANELS LP-900

Order Code: (A410)

Before assembling, please pay attention to the following points in priority:

1. Confirm the component names and quantities against the parts list.
2. Unpack and lay out all contents on a soft, protective surface such as carpet or a flannel blanket.
3. Wear protective gloves during assembly and ensure the installation is carried out by a minimum of two people.
4. Ensure all mounting screws and fasteners are fully tightened before use.
5. Secure the wall unit to a solid structure — either a brick/masonry wall, or directly into wall studs when installing on a gyprock (plasterboard) wall (NOTE: only Masonry/concrete wall plugs are supplied).

PARTS LIST

① Louvre Panels (2pc)

② Wall plugs and Screws (8pcs) For fixing in masonry and concrete walls.

How to Fix into Masonry & Concrete Walls.

1. Drill the Hole

- Check the diameter (D) of the wall plug.
- Select a masonry drill bit that matches the plug diameter.
- Drill to a depth equal to the length of the screw (T) or slightly deeper.

2. Clean the Hole

- Remove all dust and debris from the hole.
- Use a blower, brush, or compressed air to ensure the hole is completely clean.

3. Insert the Plug

- Insert the wall plug into the hole.
- Tap gently if required until it sits flush with the wall surface.

4. Fix the Screw

- Position the backing panel over the hole.
- Insert the screw through the mounting hole into the wall plug.
- Tighten securely until the panel is firmly fixed in place.

OPTIONAL ACCESSORIES

BK-110 - Plastic Bucket
105 x 110 x 50mm (WxDxH)

Order Code: A430

BK-140 - Plastic Bucket
105 x 140 x 75mm (WxDxH)

Order Code: A432

BK-220 - Plastic Bucket
140 x 220 x 125mm (WxDxH)

Order Code: A434

BK-270 - Plastic Bucket
140 x 270 x 125mm (WxDxH)

Order Code: A436

SP-900 - Industrial Wall Backing Panels - Square Hole Type
900 x 456 x 20mm - 2 Piece

Order Code: A412

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.
