

| No. | Test Report                                             | Variation |
|-----|---------------------------------------------------------|-----------|
| 1.  | Flatness of clamping surface                            | 0.015mm   |
| 2.  | Parallelism of clamping surface to base                 | 0.020mm   |
| 3.  | Squareness of clamping surface                          | 0.020mm   |
| 4.  | True running of centre hole measured with 4" long arbor | 0.015mm   |
| 5.  | Indexing accuracy. Maximum accumulative error           | 45°       |
